

## TANK

As we get deeper into drinking culture, our recent successes in tea, coffee and cocktails have given us the momentum to delve deeper into wine and water. TANK is an increasingly complete range of drinking and

pouring vessels that are now also joined by some oversize flower vases and lanterns.

New additions to the family include a lantern, ice-cream bowl, a cake stand, tea-light holders, vases, decorative bowls, and beer and whiskey glasses.

### About Tom Dixon Accessories

A collection of extraordinary accessories, gifts and design objects formed from honest, resilient and heavyweight materials including copper, marble, cast iron, brass and wood. Informed by British heritage each piece is designed to be used or played with, to be treasured or to be given.
