NEW COLLECTION

## BREW

# Tom DIXON.

BREW is a celebration of the coming together of heat, steam, water and coffee grounds – a tribute to the mysteries of the modern-day coffee ceremony. Comprising caddy, scoop, cafetiere, stovetop, milk pan, espresso cups, biscuit tin and serving tray, the range includes a piece to perfect every stage of the coffee ritual, from the push of the plunger to the dunk of the biscuit.

BREW acknowledges coffee making as a form of art and coffee drinking as an elevated occasion, a ceremonial performance that merits time and reverence. Each product is precision-engineered from stainless steel, with a high-gloss finish, achieved by applying a film of vaporized copper.

### About Tom Dixon Accessories:

A collection of extraordinary accessories, gifts and design objects formed from honest, resilient and heavyweight materials including copper, marble, cast iron, brass and wood. Informed by British heritage each piece is designed to be used or played with, to be treasured or to be given
