NEW PRODUCT

## Scented Candles in Three Sizes

Our **scented candles**, London, Royalty and Orientalist, are now available in larger three-wick and smaller gift set versions. Brass, Copper and Stainless Steel hand-spun vessels, the larger and medium versions each with a solid marble lid. All three scents are created to capture the essence of the travelling, trading and nostalgic past with the vibrant future of British life.

**Royalty** is a reminiscence of tea time with a pot of Earl Grey, scones, strawberry jam and the drive home in a '52 Bentley with tatty leather seats. Royalty is encased in a nickel vessel

**London** calls to the smell of red brick, London parks with crocuses and nettles and the salty smell of the Thames at Dagenham. London is encased in a copper vessel.

**Orientalist** captures the faint memory of an Indian wedding with rose petal garlands, giant cinnamon stick on beach stalls and the musky smells of the Chinese herbal market. Oriental is encased in a brass vessel.
